

# Inflation Data

Aaron Peikert

2023-06-22

**This is a test**

**This is another test**

This is **bold**, while this is *italic*.

The dataset we use stems from the Bank of England Research datasets.

I quote:

This dataset contains the individual responses to our Inflation Attitudes Survey, a quarterly survey of people's feelings about inflation and other economic variables like the interest rate.

For this dataset the Bank of England asked 220.846 people for their opinion on the perceived and expected inflation. The survey has run quarterly since 2001.

This is an inline R test: 12 Great.

**Here is another Test :)**
